WORK EXPERIENCE

Fullstack Web Developer   February, 2024 – Present
MaxCode Lab, Dhaka, Bangladesh

- Developed and maintained responsive web applications using Next.js.
- Collaborated closely with designers to refine and enhance UI/UX consistency.
- Optimized application performance to achieve significantly faster load times and smoother user experiences.
- Optimized backend processes to minimize response latency and maximize throughput efficiency.
- Utilized TypeScript, Bun, Drizzle, Tanstack Query and Zustand to build scalable, maintainable codebases.

SKILLS & OTHERS

Development: Next.js, TypeScript, Express.js, Bun, Drizzle, GraphQL, Zustand, Tailwind, Framer, Tanstack Query, Postgress, MongoDB
Infrastructure & Tools: Vercel, AWS / GCP, Oracle Cloud, SQL, CI/CD, Git, GitHub Actions, Docker, Storybook, Github Copilot, Claude Code

PROJECTS

Dua & Ruqyah: Live link
Contributed to building a multilingual spiritual web app using Next.js, TypeScript, Tailwind CSS, Zustand, and nextintl for localization, ensuring a responsive and user–friendly experience.

Quran Mazid: Live link
Built a modern Quran learning platform with Next.js, TypeScript, Bun, tRPC, Drizzle, TanStack Query, Tailwind CSS, and Zustand, featuring seamless localization, high performance, and a responsive UI.

Mess Mate: Github link | Live link
Developed a full-stack meal tracking and management platform using Next.js, Bun, Hono, PostgreSQL, Drizzle ORM, and Auth.js optimized performance, and streamlined user workflows.

EDUCATION

Bachelor of Science   February, 2024 – Present
National University, Bangladesh

IT Support Technician   March, 2022 – September 2022
Noakhali TTC, Bangladesh
